# 200kW UPS power system for data center interconnection

## Overview

Highly efficient, modular, high-density 200kW (400/480V) 3-phase UPS that is scalable up to 500kW. It delivers top performance for medium, large, and edge data centers, as well as critical infrastructure in commercial and industrial applications. Highly efficient. Beijing, China – November 28, 2025 — Kehua Data (SHE: 002335) successfully hosted its 2025 Data Center Annual Forum under the theme “Watts to Megawatts, Intelligence Without Boundaries” in Beijing on November 27. The event gathered hundreds of industry leaders, technical experts, and ecosystem. easy-to-use solutions. All. op of the required size. So a 1000 kW N+1 system can be composed by 6 no. 250 UPS units, or eve hole UPS unit to bypass. This feature must be combined with N+1 sizing to result in a t ue hot-swappable system. A space-saving, scalable and flexible device that's as easy to deploy as it is to manage, it's the perfect three-phase white or grey space solution for today's data center.

Kehua Unveils World''s First 200kW High-Density UPS Module MR9.0

With over 35 years of expertise, we deliver innovative UPS systems, data center infrastructure, and renewable energy solutions to customers in over 100 countries.

THE UPS FOR DATA CENTERS

For this reason, in modern Data Centers, dedicated infrastructures are implemented in order to guarantee the continuity of the operation and to provide high resilience of the system; UPS is one of

Eaton 93PM 480V 200kW UPS brochure

The Eaton® 93PM UPS combines efficiency and reliability with an eye-catching design. A space-saving, scalable and flexible device that''s as easy to deploy as it is to manage, it''s the perfect three-phase

Unveils World''s First 200kW High-Density UPS Module MR9.0 at

At the heart of the forum, made a historic announcement: the global launch of the MR9.0, the world''s first 200kW high-density UPS module, certified by China''s Tai''er Certification Center with

UPS system three-phase for IT, data center, server room

The three-phase UPS system is ideal for medium to large data centers, servers and computer rooms. A secure power supply without interruption is a top priority in critical infrastructure.

HPH 160/200 kVA

For region-specific product details and variations in specifications, please download the local leaflet or visit the local website.

200kVA Uninterruptible Power Supplies (UPS) For Sale | YorPower

Offering exceptional energy efficiency and seamless integration, our UPS systems provide uninterrupted backup power and superior protection for large data centers, critical IT infrastructure, and industrial

UPS system three-phase for IT, data center, server room

Three-phase UPS system Ingenio MAX 200 - 600 KW for IT infrastructure. Medium to large data centers, networks, servers. Critical Power.
