24-core fiber optic patch panel for maintenance

Overview

The 24 port fiber optic patch panel is reliable fiber optic organization and distribution products, it is sliding type, convenient for operations and maintenance, The 24 port fiber patch panel has wide operation temperature and suit density fiber optic installations. Application: It is applicable. The ODF-HL24-24SC/PJ Fiber Optic Patch Panel is a high-performance solution designed for efficient fiber optic splicing, distribution, and management. Bwnfiber fiber optic patch panel is made of cold rolling steel sheet as outer shell, ensure the artistic appearance, and durable quality to resist the weather changing; takes use of the oil resistance NBR to seal the cable entrance for flexible cabling; equipped with overlappinig fiber-melting try. A 24-port fiber optic patch panel is a central hub in structured cabling systems, enabling efficient organization, termination, and management of fiber optic connections.
