How much does a standard cable tray cost in Botswana

Overview

Answer: The Kable Kontrol Cable Tray can hold various types of cables, including power cords, Ethernet cables, and audio/video cables.

Key Takeaways

Cable tray prices in Botswana vary widely depending on material, type, size, and supplier, typically ranging from BWP 150 to BWP 1,500 per meter for standard industrial trays.

Factors Affecting Cable Tray Cost

Material: Cable trays are commonly made from galvanized steel, stainless steel, aluminum, or FRP (fiber-reinforced plastic). Galvanized steel is generally the most affordable, while stainless steel and FRP are more expensive due to corrosion resistance and durability. Type and Design: Ladder trays, perforated trays, and trough trays differ in cost.

Ladder trays are often slightly more expensive due to their structural support, while perforated trays are moderately priced and suitable for lighter loads. Size and Load Capacity: Wider trays or those designed to carry heavier cables cost more. Standard widths range from 100 mm to 600 mm, and larger sizes increase material and manufacturing costs.

Customization and Accessories: Fittings, bends, covers, and mounting hardware can add to the total cost. Custom solutions for specific projects may increase the price significantly. Supplier and Brand: Local suppliers like Brilltech Engineers and Jeetmull Jaichandlall offer competitive pricing, but imported trays may cost more due to shipping and import duties.

Typical Price Range

Small under-desk or light-duty trays: BWP 150–300 per meter Standard industrial trays (galvanized steel, 100–300 mm width): BWP 400–800 per meter Heavy-duty or stainless steel trays: BWP 900–1,500 per meter Additional ConsiderationsInstallation Costs: Labor for mounting and securing trays can add 20–40% to the material cost. Maintenance: Cable trays are low-maintenance, but corrosion-resistant coatings or stainless steel reduce long-term costs. Bulk Orders: Purchasing in bulk often reduces the per-meter price.

For accurate pricing, it is recommended to contact local suppliers directly with your project specifications, including tray type, material, size, and quantity, to receive a detailed quotation.
