Bahamas Fiber Optic Cable Access

Overview

Two primary providers — BTC and Cable Bahamas (ALIV) — compete for residential and mobile customers, while Starlink now serves more remote outer islands. Setup is straightforward for legal residents, though documentation requirements and installation timescales can vary. Along the way we make it our mission to enrich lives and businesses through reliable, fast and future ready technology. TeleGeography's comprehensive and regularly updated interactive map of the world's major submarine cable systems and landing stations. For more details and insights, please read this. REV services are exclusively available to Family Island customers. Choose the fibre speed that fits your family's. We're bringing fiber to more homes in The Bahamas than ever before so you can connect more devices and binge non-stop, really non-stop! And for the first time in The Bahamas you get equal download and upload speed.
