Bahamas DAC High-Speed Cable 100G

Overview

Our 100G QSFP28 DAC cables are the definitive solution for high-density, short-reach 100GbE connectivity. Designed for the rigorous demands of modern hyperscale data centers and enterprise backbones, these cables provide a high-bandwidth, low-latency alternative to costly optical. FS 100G DAC/AOC cable, passive/active DAC from 0. 5m to 10m and FS QSFP28 AOC from 1m to 100m cable, cost-effective alternative for 100G Ethernet short links between QSFP+ ports of switches. Get your 100G direct attach cables from nearby warehouses. Trusted by 260K+ Enterprise. This HDMI 2. It also has an active signal enhancer built in, with a connection distance of up to 150 meters and no signal loss. The cable is also backward compatible with previous HDMI specifications and can be used with all your existing HDMI devices. The. End-to-end design, manufacturing, and supply-chain orchestration for assemblies—from simple box builds to complex, fully wired electrical cabinets—delivered to spec and certified for any environment. With our technological expertise and advanced manufacturing capabilities, you can save on R&D costs. FS DAC, AOC and AEC cables are most used in data centers and enterprise networks for switches, servers, and storage interconnects within a rack. With high-speed, high-reliability transmission, FS twinax cables come in different lengths to support different transmission data rates, such as 1G, 10G. 1m (3ft) 100G QSFP28 Passive Copper Cable for use with Extreme 100G switches and other data center platforms.

City Product Center_1-C-FLINK technology|DAC High speed copper

Bahamas 100G QSFP28 DAC High-speed Cable The QSFP28 (Four-channel Hot Swap) passive high-speed cable module provides four data transmission channels with a maximum transmission rate of

DAC Cables | 100G High-Speed Connectivity

Unlock 100G performance with BizLink''s DAC cables. Our direct attach cable solutions, including QSFP28, ensure low loss & high-speed data for demanding data centers.

DAC/AOC/ACC/AEC Cables

With high-speed, high-reliability transmission, FS twinax cables come in different lengths to support different transmission data rates, such as 1G, 10G, 25G, 50G,

Extreme 10411 Compatible 100G QSFP28 Cable

The Extreme 10411 compatible cable is designed for 100Gb/s high-speed interconnecting networking applications such as data center, high-performance

Wholesale Direct Attach Copper (DAC) Cables | 10G

Explore high-speed DAC cables from Unitekfiber. We provide 10G, 25G, 40G, and 100G QSFP28 DAC trunk and breakout cables for data centers. 100%

3M™ 100G QSFP28 Direct Attach Copper Cable

Passive copper DAC cable assemblies feature foldable, flexible twinax cable that can be folded back on itself for environments where space is limited. The

100G QSFP28 DAC Cables OEM

Our 100G QSFP28 DAC cables are the definitive solution for high-density, short-reach 100GbE connectivity. Designed for the rigorous demands of modern hyperscale data centers and enterprise

JTOPTICS 100G DAC Cables | High-Performance 100G Solutions

100G DAC Cables from JTOPTICS are Direct Attach Copper cables ideal for short-distance, cost-effective connectivity in top-of-rack or intra-rack applications. These cables provide low-latency, high

100G QSFP28 DAC Cables | Direct & Breakout | Up to 5m

With standard lengths up to 5 m (16 ft), NS 100G DACs are ideal for in-rack or rack-to-rack deployments. They offer ultra-low latency, near-zero power consumption,

100G Passive High-Speed Cable (DAC) Selection Guide

Introduction The 100G Passive Direct Attach Cable (DAC) is a key component for building efficient and cost-effective network interconnections. To help you achieve stable and reliable 100G connectivity

High-Speed 100G QSFP28 DAC Cable

The 100G QSFP28 to QSFP28 DAC Cable is a reliable, low-cost solution for short-distance, high-speed connections between network equipment. Designed for

10Gtek 100Gb/s QSFP28 DAC Cable

10Gtek 100Gb/s QSFP28 to QSFP28 direct attach copper (DAC) cables are high speed, cost-effective alternatives to fiber optics in 100Gb/s Ethernet applications. 10Gtek QSFP28 passive copper cable contains four high-speed copper pairs, each operating at data rates of up to 25GbE.

100G DAC Cable | QSFP28 Direct Attach Copper Cable

100G DAC Cables (QSFP28) are cost-effective, pre-terminated twinax copper assemblies designed for short-reach high-speed interconnects in modern data centers, enterprise networks and SANs. 100G

Get reliable 100G QSFP28 cables from US stock with ...

These are the fastest cables available for QSFP28 format, reaching up to 28G per channel (112G aggregate). Both passive copper DAC and fiber active AOC cables are available. Such cables are

100G DAC Cable: A Comprehensive Review and Guide for

The 100G DAC cable is a direct-attach copper solution for high-speed networking, offering low latency and cost-effective connectivity between devices like switches and routers. It supports QSFP28 and

High speed QSFP28 100G Direct Attach Cables and Active Optical Cables

QSFP-100G-01C - QSFP28 100G passive copper DAC direct attach cable 1m length Product description The QSFP-100G-01C is a passive copper direct attach cable with QSFP28 connectors and has 1m

100G DAC/AOC | FS Cables

FS 100G DAC/AOC cable, passive/active DAC from 0.5m to 10m and FS QSFP28 AOC from 1m to 100m cable, cost-effective alternative for 100G Ethernet short

100G QSFP28 DAC Cables | Direct & Breakout | Up to 5m

© 2026 KENHARDT OPTICAL NETWORKS - All rights reserved

100G QSFP28 DAC Cables High-Speed Direct and Breakout Copper Interconnects Overview The 100G QSFP28 Direct Attach Copper (DAC) cable family delivers a fast, affordable, and efficient solution for
