Co-packaged Optical CPO Industry Chain

Overview

Interactive 2026 field guide to the co-packaged optics (CPO) supply chain. Explore the InP laser, hybrid bond, silicon photonics chiplet, and switch ASIC layers — with chokepoints, equipment, and raw materials. 9B by 2029, fueled largely by AI data centers. Read on to learn key CPO trends shaping AI systems in 2026 and the challenges designers will need to. IDTechEx's report titled "Co-Packaged Optics (CPO) 2026 to 2036: Technologies, Market, and Forecasts" examines this transition in detail. It reviews recent advances in CPO technology, tracks emerging packaging approaches, assesses the strategies of leading companies, and provides long term market. Co-packaged optics (CPO) is a heterogeneous integration packaging method used to integrate the optical engine (OE), which consists of photonic ICs (PIC) and the electronic ICs (EIC), as the switch ASIC (application specific IC). CPO enhances interconnect bandwidth and energy efficiency by integrating optics and electronics.

Co-Packaged Optics (CPO) Supply Chain — Interactive Map · 2026

Interactive 2026 field guide to the co-packaged optics (CPO) supply chain. Explore the InP laser, hybrid bond, silicon photonics chiplet, and switch ASIC layers — with chokepoints, equipment,

The Silicon Photonics & Co-Packaged Optics supply chain

Move the optical engines into the same package as the switch ASIC, millimeters from the silicon doing the work. This architecture is called Co-Packaged Optics, or CPO. First production

Five Key Trends of Co-Packaged Optics (CPO) in 2026

Meeting market expectations and building confidence in co-packaged optics will require more than performance demonstrations. CPO adoption

Co-Packaged Optics (CPO)Co-Packaged Optics (CPO)

IDTechEx''s "Co-Packaged Optics (CPO) 2026-2036" explores technical innovations and packaging trends, analyzing the value chain. It evaluates industry players

Co-Packaged Optics (CPO) 2025-2035: Technologies, Market, and

Co-packaged optics (CPO) is a heterogeneous integration packaging method used to integrate the optical engine (OE), which consists of photonic ICs (PIC) and the electronic ICs (EIC), as the switch

Co-packaged Optics Companies

This report lists the top Co-packaged Optics companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive

Co-Packaged Optics (CPO): Evaluating Different

IDTechEx''s latest report, “Co-Packaged Optics (CPO) 2025-2035: Technologies, Market, and Forecasts”, explores various packaging technologies

What is Co-Packaged Optics (CPO) Technology?

Check out our webinar, Scalable Fiber Solutions for Co-Packaged Optics (CPO) Applications, in which industry experts from Corning and Broadcom explore key

Co-Packaged Optics (CPO) Technology Growth

Discover the explosive growth of the Co-Packaged Optics (CPO) market, projected to reach $25 billion by 2033. Learn about key drivers, industry trends, leading

Co-Packaged Optics Market Market Report 2026-2036

Global co-packaged optics market report 2026-2036. Covers CPO architecture, AI data centre adoption, NVIDIA vs Broadcom CPO strategies & forecasts.

Co Packaged Optics (CPO) – Scaling with Light for the

Co-Packaged Optics (CPO) has long promised to transform datacenter connectivity, but it has taken a long time for the technology to come to market,

Nvidia Invests $4B in Co-Packaged Optics Suppliers Lumentum,

Nvidia''s $4 billion strategic investment in optical networking leaders Lumentum and Coherent marks a bold step to accelerate co-packaged optics (CPO) for AI-focused data centers.

Inside Nvidia''s $4B Optical Strategy--And Why CPO Changes Everything

Nvidia Corporation''s $2B bets on Coherent & Lumentum signal a major CPO rollout as it battles Broadcom. Click for this NVDA stock update.

Global Co-Packaged Optics Module (CPO) Competitive Landscape ...

Global Co-Packaged Optics Module (CPO) Competitive Landscape Professional Research Report 2026 Market Overview According to DIResearch□s in-depth investigation and

Co-packaged optics are inching closer to

Before CPO achieves actual commercial status for network applications in the DCs, it may gain more popularity in high-power computing rather than just displacing pluggable optics.

Five Key Trends of Co-Packaged Optics (CPO) in 2026

The CPO supply chain and standards are still evolving, and interoperability across vendors remains a key challenge. Unlike pluggable optics,

Samsung Foundry Reportedly Wins Optical Module Order,

As a result, optical transmission technologies are becoming increasingly important. TrendForce forecasts that co-packaged optics (CPO) will steadily increase their share of optical

Nvidia''s $4B Optical Bet: How CPO Changes the Game

A deep dive into Nvidia''s $4B optical networking strategy and how co-packaged optics (CPO) will reshape AI factories, data centers, and high-speed networking.
