Concealed Cable Trays on Walls

Overview

Cable trays and raceways are simple yet effective tools for organizing and hiding cables. These systems attach to the underside of your desk or along walls, neatly containing wires. You can hide everything from power cords to HDMI cables inside these channels, making them invisible. Let's dive into some creative ideas to keep those pesky cords out of sight and out of mind! Elevate your space with hidden elegance: Crown molding for a seamless, wire-free look. Sneak cables through crown molding for an elegant solution. It is lightweight and has a very open, grid-like structure. This system is a structured pathway designed to safely route low-voltage cables, such as HDMI or networking wires, through the enclosed cavity of a standard framed wall. 6 of BS 7671:2018+A2:2022 (IET Wiring Regulations 18th Edition).
