The utility model is suitable for the technical field of distribution boxes and provides an elevator distribution box, which comprises a box body, a power supply and a power supply control module, wherein the box body is provided with a plurality of power supply ports; the mounting assembly is. Convenient installation: When install the Circuit breaker, can put the din rail support panel hung outside the flush boxes, not limit to the narrow space, make the installation more easy 4. Different ways 2-36ways avaliable 1)Q:How can i trust your company?

A:Golden electric is The. Specification: Brand:DELIXI Way:24 way plastic distribution Outline Dimensions: 438mm*230mm*75mm Installation Dimensions:413*210*75mm Materials: flame retardant PC material Model:PZ50-20 Warranty time:3YEARS Certificate: CCC weight:- Application:- Package:Standard Export Master Package. Product. An electrical concealed box (also known as a junction box or wall box) is a vital component in modern electrical installations. These enclosures are used to house electrical connections, switches, sockets, and outlets, ensuring safety, organization, and compliance with building codes. They automatically stop the flow of electricity to prevent damage and hazards. Homes, industries, and businesses use them for safety.
