Custom Aluminum Alloy Cable Management Rack Quotation

Overview

Custom Aluminum Racks AccuTrex manufactures custom aluminum racks for all industries, specializing in the telecommunications, electronics, electrical, powe.

Key Takeaways

You can obtain a custom quotation for an aluminum alloy cable management rack by contacting specialized manufacturers like AccuTrex or using design tools from FrameXpert to specify your requirements. Options for Custom Aluminum RacksAccuTrex specializes in custom aluminum racks for industries including telecommunications, electronics, aerospace, and defense. They offer full in-house production capabilities, including CNC punching, bending, laser and waterjet cutting, robotic welding, powder coating, and assembly.

They can handle prototypes, short runs, or large production runs, and can manufacture racks to meet mil-spec and electrical standards.

Frame

Xpert provides a design tool called FrameDesigner, which allows you to create custom racks and shelving units using industrial-strength T-slotted aluminum frames. You can specify dimensions, add rails, shelves, and accessories, and even plan finishes like powder coating or custom surfaces. Pricing depends on the number of parts and accessories included in your design.

Cable Management Integration

For cable management, companies like Chatsworth and Jonathan Engineered Solutions offer vertical and horizontal cable managers, cable carriers, and retractor systems that can be integrated into custom racks to organize, protect, and optimize cabling. How to Request a QuoteAccuTrex: Contact their sales team with your specifications, including dimensions, quantity, and any finishing or accessory requirements. They will provide a detailed quotation based on your design.

Frame

Xpert: Use FrameDesigner to create your rack design, then submit it for a custom quote. The cost is calculated based on the components and accessories you select.

AN

D Cable: You can also request a quote directly for cable management or rack management products by completing their online form, specifying your custom requirements.

Recommendations

Prepare detailed specifications including rack dimensions, weight capacity, cable management needs, and finish preferences. Consider lead times and whether you need a prototype or full production run. Ask about compliance with industry standards if your application requires mil-spec or electrical certifications.

By providing these details to the manufacturers, you can receive an accurate and tailored quotation for your custom aluminum alloy cable management rack.
