Estonian Explosion-Proof Lighting Distribution Box Specifications

Overview

Estonian Explosion Proof Lighting Distribution Box Specifications. Sell Estonian Explosion Proof Lighting Distribution Box Specifications in bulk to veri.

Key Takeaways

Estonian explosion-proof distribution boxes are designed for hazardous areas with flameproof enclosures, modular installation, and compliance with ATEX/IECEx standards.

Key Specifications

Enclosure Type and MaterialFlameproof enclosure (Ex d) suitable for feed distribution, control, and motor starting applications. Materials include 304 stainless steel, 316L stainless steel, and Q235 steel, providing durability and corrosion resistance.

Certification and Safety Standards

Certified for Ex db IIC T6... T41 Gb, Ex db [ia Ga] IIC T6... T41 Gb, and Ex tb IIIC T80°C...

T130°C Db. Compliant with ATEX, IECEx, and other international explosion-proof standards, ensuring safe operation in Zones 1, 2, 21, and 22.

Temperature and Environmental Ratings

Operating temperature range: T6 to T4 (−40°C to +40°C depending on model). Suitable for harsh industrial environments including gas, oil, chemical, and metal processing facilities.

Modularity and Installation

Boxes can be combined and installed freely to save space and meet various distribution system requirements. Equipped with specialized hinge structures to prevent damage to flameproof joints during opening and closing, extending service life. Cable entry options include standard Mx 1.

5 plugs or NPT plugs on request, with DQM-II (Ex d) or DQM-III (Ex d) recommended for secure connections.

Internal Components and Compatibility

Compatible with ammeters, voltmeters, power meters, tachometers, temperature and humidity controllers, MCCBs, MCBs, AC contactors, relays, PLCs, UPS, batteries, and lighting controllers. Supports integration with LED, HID, and fluorescent lighting systems, as well as emergency devices and safety barriers.

Additional Features

Optional customization for special requirements, including cable entry direction, size, and internal configuration. Designed for long service life and low maintenance in demanding industrial environments. These specifications make Estonian explosion-proof distribution boxes suitable for industrial hazardous areas, providing reliable power distribution and control while ensuring compliance with international safety standards.
