Denmark Multimode Armored Optical Cable Price

Overview

Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations to meet the specific needs of your system.

Key Takeaways

Multimode armored fiber optic cables in Denmark typically range from 100 to 500 DKK per meter depending on fiber type, length, and vendor.

Overview of Pricing

In Denmark, suppliers such as Mouser Electronics and RS Components offer multimode armored fiber optic cables with prices listed in Danish Krone (DKK). Prices vary based on: Fiber type: OM3 or OM4 multimode fibers are common, with OM4 generally costing more due to higher bandwidth support. Cable length: Short patch cables (1–15 meters) are priced higher per meter than bulk outdoor cables.

Armoring and jacket type: Steel-armored or Aramid-reinforced cables for outdoor or direct burial use are more expensive than standard indoor cables. Connector type: LC/LC duplex connectors are standard for high-speed applications, affecting the final price.

Typical Price Ranges

Short armored patch cables (1–15 m, OM4, LC/LC): ~300–500 DKK per meter. Bulk outdoor armored multimode cables (100–2000 m, OM3/OM4): ~100–250 DKK per meter, depending on specifications like tensile strength, crush resistance, and water-tight jackets. Specialty cables (low-smoke zero-halogen, high-temperature resistant, or direct burial): may exceed 500 DKK per meter for short lengths due to enhanced protection.

Sourcing Options in Denmark

Mouser Denmark: Offers a wide range of fiber optic cables with datasheets and pricing filters by quantity.

R

S Components Denmark: Provides industrial-grade multimode armored cables suitable for data centers and outdoor installations. Local distributors: Some Danish telecom and networking suppliers provide bulk pricing and custom cable assemblies.

Recommendations

For data center or high-speed Ethernet applications, OM4 armored cables with LC/LC connectors are recommended for 10G–100G networks. For outdoor or harsh environments, choose cables with steel or Aramid armor, HDPE or LSZH jackets, and check for direct burial suitability. Always compare unit prices per meter and consider shipping costs when ordering from international suppliers.

By checking suppliers like Mouser Denmark and requesting quotes for your required length and specifications, you can obtain the most accurate and up-to-date pricing for multimode armored optical cables in Denmark.
