Integrated Multimode Fiber Optic Patch Cord

Overview

These multimode fiber optic patch cables consist of circular-core step-index multimode fiber and have an FC/PC connector on one end and an SMA905 connector on the other end. They are available from stock in 1 m and 2 m lengths. This guide cuts through the jargon: single-mode vs multimode, LC vs MPO, UPC vs APC, and every specification that actually matters when you're spec'ing out a real deployment. AR-coated and uncoated fluoride fiber optic patch cables are also available for mid-IR use, solarization-resistant cables for ultraviolet. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 8% may be applied if shipping to the United States. This fiber has a TECS coating that acts as a second cladding with an NA of 0.
