Lc-lc single-mode fiber optic patch cord dual core

Overview

The single mode LC to LC patch cord with reverse-polarity design allows 3 second quick change polarity without the fibers exposed. Take a look at our test program to get the reliable and high-performance fibre optic cables. Learn more FSWireNet Network Mapping System An automated network mapping system that replaces labour-intensive, error-prone cable documentation to manage cables. LC fiber patch cables can be singlemode or multimode, and they're used to connect a. Optcore offers an extensive line of LC to LC 9/125µm OS2 single-mode duplex fiber optic patch cables with many choices of different lengths, jacket material, polish, and cable diameter. Low insertion loss and back reflection loss. Meanwhile, it is an indispensa ction between output end and terminal equipment.
