Optical Cable High-Altitude Winding Machine

Overview

The new “SW” class winders are shaftless and feature an innovative spool holder with automatic clamping unit for high-precision rotation.

Article Content

High-precision positioning and winding | WIRE

The new “SW” class winders are shaftless and feature an innovative spool holder with automatic clamping unit for high-precision rotation. The

REWINDING MACHINE

Developed for the fast and accurate rewinding of optical fibers, fiber optic cables and delicate filaments, these systems achieve winding speeds of up to 1000 m/min, all while ensuring exceptional tension

Fully Automatic Fiber Winding Machine | Optical Fiber

Fully automatic fiber winding machine for high-precision and high-speed winding of optical fibers. Ensures stable tension, uniform arrangement, and efficient

Winding Technology :: Supertek

© 2026 KENHARDT OPTICAL NETWORKS - All rights reserved

Supertek offers solutions for unwinding, winding and rewinding extremely thin and sensitive materials such as wire, flat wire, fiberglass, optical fibers, fiber, filament, silk, foil, solder, and many others.

Optical Fiber Winding Machine: Precision & Automation

Find the best optical fiber winding machine for high-precision cable coiling. Explore features like tension control, programmable modes, and AI optimization. Click to discover top-rated

100 % automatic precision winders | Roblon

The cable is positioned perfectly side by side without major gaps or cable crossings, ensuring high quality and a very presentable product. The Precision Coiling Unit

Qipang High Speed Cantilever Shaftless Take-up Machine for Optical ...

Our state-of-the-art cable cantilever take-up machine is crafted for versatility, accommodating an array of cable drum sizes. The advanced rolling ring traverse ensures cables are neatly and efficiently arranged.

Automatic Optical Fiber Cutting and Winding Machine

It can cut and wind optical cables of different specifications into the required length and ring shape.

Second Generation High Altitude Line Binding

Second Generation High Altitude Line Binding Automatic Cable Tying Machine Optical Cable Binding Machine Widely used in the aloft work of

High Altitude Five-Generation Intelligent Optical Cable

High Altitude Five-Generation Intelligent Optical Cable Bundle Cable Bounding Machine, Find Details and Price about Automatic Cable/Optical Cable Tie

High-Precision Winding Machines for Fine Wire

The best coil winding machines for ultra-fine wire and optical fibers Realize your machine and production with the best winders, spoolers and components of

Newest High Altitude Optical Cable Binding Machine Line Binding ...

Automatic Cable Tying Machine is a hand-held, climb-free cable fast tying tool with an integrated intelligent control module, which can automatically complete all the steps of cable tying, and can be

Supertek WLT

© 2026 KENHARDT OPTICAL NETWORKS - All rights reserved

WINDING AND SPOOLING MACHINES Supertek WLT is a manufacturer and supplier of high-quality machines and precision-engineered products for the

Winding Machines | Products and Machines by Supertek

Winding machines with the best winding technology Supertek - the most high precision winding machines for fine wire or optical fiber! Perfect machines for coil

Optical Fiber Cable rewinding Machine

This production line (Fiber Optic Cable Rolling Machine, Optical Fiber Cable Winding Machine) is used for rewinding optical cable to be smaller reels. It can

Fiber Optics Industry :: Supertek

This machine allows for precise control and ensures a constant winding process, which is crucial for the production of fiber optics. This system is particularly indispensable in the manufacturing of optical

Fiber Optic Cable Automatic Strapping High-Altitude

Automatic Cable Tying Machine is a hand-held, climb-free cable fast tying tool with an integrated intelligent control module, which can automatically complete all the

High-Speed Precision Fiber Optic Coil Winding

Fiber Optic Gyroscope Coil Winding: A custom-designed automated machine for rapid fiber optic coil winding for strategic, navigation, and tactical grade
