Exposed outdoor optical distribution box

Overview

Designed for plug-and-play installation, this outdoor optical distribution box reduces on-site splicing, shortens deployment cycles, and improves installation consistency across large-scale ODN projects. It is ideal for outdoor FTTH and FTTx access networks requiring rapid. An outdoor termination box (often called a fiber optic distribution box or outdoor terminal box) is an enclosed enclosure used in outdoor environments. Its main function is to terminate, protect, connect, and manage optical cables. OTRANS strives to provide you with professional, reliable. The Outdoor Optical Distribution Box (SP-GTS-B08) is a pre-connectorized FTTH access solution engineered for fast and efficient last-mile fiber deployment.
