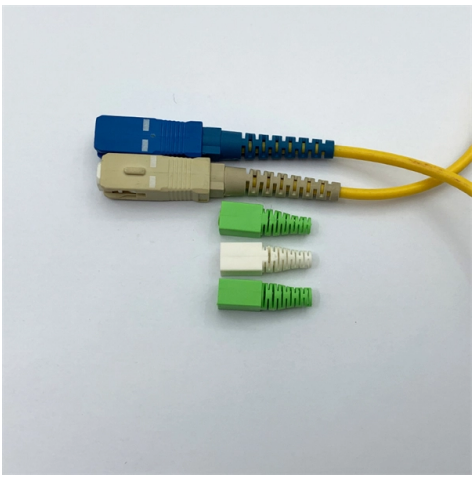
How much does an elevator light curtain module cost



Overview

The honest answer is "it depends". Most projects land between $5,850 to $8,150 per opening installed. Higher-end and larger systems or complex sites can reach $15,000 each. The elevator infrared light curtain is a safety device used to protect people and objects from being caught in the elevator door when it is closing. It consists of two main parts: a transmitter and a receiver. Got off a call with a general contractor last week who asked, "How much does an elevator smoke curtain cost?

" The. Buy Light curtain spare parts for lifts & escalators now: ✓ Large Light curtain selection ✓ Top brands ✓ Favourably priced - Order with overnight delivery from Hauer!Although the actual weight of the light curtain is only 2. 8kg, because the length is more than 2 meters, the actual weight of the freight is about 4 kg (220*9*9cm).
