Tanzania DAC High-Speed Cable 200G

Overview

Supporting 200 Gbps over 4×50G PAM4 lanes, these passive twinax cables deliver ultra-low latency, near-zero power consumption, and a cost-effective alternative to optical modules. The Volex DAC cable product family includes cable assemblies with Small Form-factor Pluggable (SFP), Quad Small Form-factor Pluggable (QSFP), and Octal Small Form-factor Pluggable (OSFP) single and double density modules. These cables provide low-latency, high-bandwidth solutions suitable for modern data center demands. Firewire is also known as I-link or IEEE1394 and is high speed (400Mbps). □□ Which ones belong to the premium segment?

□□ Which ones are the cheapest?

Jiji. With high-speed, high-reliability transmission, FS twinax cables come in different lengths to support different transmission data rates, such as 1G, 10G. OSFP Cables (OSFP DAC Cables) by Amphenol Now In-Stock at Speeds up to 800. 0 Gbps with 1600 Gbps Coming Soon! Amphenol is the largest OSFP Direct Attach Cable (DAC) manufacturer worldwide and Cables on Demand offers the public factory-direct access to the same 400G and 800G OSFP DAC Cables powering. The 200G DAC cable is a high-performance, low-power, short-range connectivity solution for scenarios such as data centers, high-performance computing (HPC), and storage area networks (SANs).

Article Content

Direct Attach Copper (DAC) Cables

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

DAC/AOC/ACC/AEC Cables

With high-speed, high-reliability transmission, FS twinax cables come in different lengths to support different transmission data rates, such as 1G, 10G, 25G, 50G,

OSFP Direct Attach Cables (200G/400G/800G DAC)

Our OSFP Cable line-up is OSFP MSA compliant and protocol agnostic for worry-free integration into 200/400/800-Gigabit Ethernet and InfiniBand networks.

Wholesale 200G DAC Cable| 200Gbps Twinax Direct Attach Cable

A 200G DAC cable (Direct Attach Copper cable) is a high-speed, cost-effective solution for short-range data center interconnects. It uses copper wiring to connect switches, servers, or routers, supporting

Spec Sheet

Siemon''s 200G (100G per lane) PAM4 Ethernet SFP-DD passive copper cable DAC1 assemblies are designed to exceed industry standard performance offering a cost-effective, low latency, low-power

200G QSFP56 DAC Cables | Direct & Breakout

Provides direct 200G-to-200G connections between switches or from servers to switches, ensuring stable throughput with minimal latency. Splits one 200G port

200G DAC Cables : JT-QSFP56-200G-DAC-XX

200G QSFP56 DAC cables are suitable for very short links and offer a cost-effective way to establish a 200-Gigabit link between QSFP-200G ports of

Q1Q-56P02.0-8ZU

High Speed Cable Assembly, DAC (Direct Attach Copper), 200G PAM4 EtherNet, CR4 to CR4, QSFP56 to QSFP56, 2 Meter, LSZH Compliant/UL94 VW-1 Mesh, Blue, IEEE-802.3cd

200G QSFP56 PCC/ACC

The GIGALIGHT 200G QSFP56 pluggable direct attach copper (DAC) cable is available in both Active Copper Cables (ACC) and Passive Copper Cables (PCC) supports 200G Ethernet and InfiniBand

© 2026 KENHARDT OPTICAL NETWORKS - All rights reserved

200G QSFP28-DD Direct Attach Cable | AscentOptics

200G QSFP28-DD DAC Product Descriptions 200G QSFP28-DD (Double-Density) DAC cables are passive Direct Attach Copper (DAC) cables as high speed, cost-effective alternatives to fiber optics

Data Center Interconnect Design With 200G To 1.6T DAC Cables

200G to 1.6T DAC cables support low latency copper interconnects for data centers with scalable breakout and aggregation configurations.

200G / 400G / 800G DAC & AOC Cables for High-Performance

Discover high-performance direct-connect and active optical cables for 200G, 400G, and 800G networks with high bandwidth and stable performance solutions.

200G DAC Cables : JT-QSFP56-200G-DAC-XX

However, there are more stringent requirements for cable insertion loss. For detailed requirements, please see High Speed Characteristics. 200G QSFP56 DAC cables are suitable for very short links

200G QSFP56 Active DAC Cable | Direct Attach Cable

FiberWeek 200G QSFP56 passive DAC Cables are an efficient and cost-effective option for high-speed networking applications that require a short-range

200G QSFP56 DAC Cables | Direct & Breakout

Overview The 200G QSFP56 Direct Attach Copper (DAC) cable family is purpose-built for the latest generation of high-speed networking. Supporting 200 Gbps

OSFP Direct Attach Cables (200G/400G/800G DAC)

OSFP Direct Attach Cables (200G/400G/800G DAC) OSFP Cables (OSFP DAC Cables) by Amphenol Now In-Stock at Speeds up to 800.0 Gbps with 1600 Gbps Coming Soon! Amphenol is the largest

Exploring the Advantages and Applications of FS 200G Ethernet DAC

Explore FS 200G Ethernet DAC/AOC cables. DAC delivers cost-effective, low-latency connectivity, while AOC enables long-distance, EMI-resistant transmission, supporting diverse

How to Choose a 400G High-Speed Direct Attach Cable (DAC)?

400G Passive Direct Attach Cables (DACs) are key components for building efficient and cost-effective network interconnections. To help you achieve stable and reliable 400G connections
