Multimode LC to SC fiber optic connector

Overview

FiberCheap's LC female to SC male Multimode 50/125 Fiber Optical Hybrid Adapter is designed for connecting together a LC male connector of Fiber Optic Patch Cord or Fiber Optic Pigtail into a SC Female port of Fiber Optic Patch Cord or Fiber Optical Pigtail. This series features a durable bronze alignment sleeve which provides precision alignment ensuring signal integrity and is best suited for multimode applications. This connector landscape reflects how modern SFP deployments prioritize port density and. The LC to SC adapter is a type of fiber optic connector that is primarily used to connect an LC (Lucent Connector) terminated fiber with an SC (Subscriber Connector) terminated fiber. Fiber patch cable is commonly used to connect the equipment in fiber-optic networks. Ensures low return loss (minimal light reflection back into.
