New high-density network cabinets available now

Overview

The new EcoStruxure Pod Data Center and EcoStruxure Rack Solutions are now available globally. Organizations are deploying AI clusters and grappling with extreme rack power densities, which are projected to reach 1MW and beyond. Supports up to 1MW+ cooling per rack, with 100kW air-based cooling and an adjacent CDU bringing liquid to the chip. A Delta rack cabinet can outperform the competition thanks to its increased space utilization and heat dissipation via an outstanding 70%. As AI transforms data center architecture, traditional cabinets can no longer support the weight, cooling, and spatial demands of modern GPU-driven systems. The Martin MHD-Series High Density Server Cabinet is purpose-built for these new requirements—delivering exceptional structural strength. Chatsworth Products offers a comprehensive range of server cabinets and racks, including the highly engineered ZetaFrame® Cabinet System, designed to meet the demanding needs of AI and HPC applications. It offers fast, built-to-order configurability with exceptional strength and scalability for. Evolving its EcoStruxure™ Data Center Solutions portfolio, Schneider Electric introduced a Prefabricated Modular EcoStruxure Pod Data Center solution that consolidates infrastructure for liquid cooling, high-power busway and high-density NetShelter Racks.

InfraSuite Modular Server Rack System

Delta is proud to introduce its modular rack cabinet designed for maximum performance, convenience, flexibility and safety in high density IT room

MHD-Series High Density Server Cabinet

The Martin MHD-Series High Density Server Cabinet is purpose-built for these new requirements—delivering exceptional structural strength, optimized airflow pathways, and intelligent

ZetaFrame® Cabinet System | AI & HPC Data Center

Discover the ZetaFrame® Cabinet System, a high-density cabinet platform designed to support AI and HPC workloads with integrated power,

Schneider Electric Launches New Data Center

Evolving its EcoStruxure™ Data Center Solutions portfolio, Schneider Electric introduced a Prefabricated Modular EcoStruxure Pod Data Center solution that

Belden Rack and Cabinet Systems Catalog

Belden Zero U Vertical patch panel allows for optimal use of mounting space into XHS Series cabinets by providing high-density connectivity options along equipment mounting rails.

Server Racks & Network Cabinets: The 2026

Security: This is the highest level of physical protection available in a rack format. 5.3 Open-Frame Racks: The Connectivity Hub Capacity Range: 29U

Racks & Cabinets

Our unique cable and connectivity expertise is central to the design of this feature-rich Rack & Cabinet system, which offers ease of installation, easy MACs and

Process and Control Today | Schneider Electric

The new EcoStruxure Pod Data Center and EcoStruxure Rack Solutions are now available globally. Organizations are deploying AI clusters and

Schneider Electric: New Data Center Solutions for High

The updated EcoStruxure™ Data Center Solutions portfolio now includes a Prefabricated Modular EcoStruxure Pod Data Center, integrating

Schneider Electric Launches New Data Centre Solutions to Meet ...

© 2026 KENHARDT OPTICAL NETWORKS - All rights reserved

The Prefabricated Modular EcoStruxure Pod Data Centre is now shipping pre-designed and pre-assembled with all components for rapid deployment to support high-density workloads.

Data Center Rack Density Has Doubled. And It''s Still

Per the report, most respondents (53%) believe new AI workloads (generative AI) will "definitely" increase capacity requirements for the colocation

The Definitive 2026 Guide to Network Cabinets: 1.6T

As networks move to 1.6T speeds, cable management becomes critical. Our cabinets feature high-density cable managers that maintain bend radius and minimize signal loss.

DDC Solutions Pushes Cooling for Data Centers

About DDC Solutions DDC Solutions offers ultra-high-density data center cooling that lowers total cost of ownership through its dynamic

Exploring the Role of Network Cabinets in Modern IT

Network cabinets are the backbone of modern IT infrastructure — organizing routers, switches, servers and wiring into secure, cool, manageable

High-Density Fiber Optic Network Cabinet Rack

Introducing our Fiber Optic Network Cabinet, a high-quality solution for organizing and protecting your network equipment. This cabinet is designed to

Getting hotter, getting denser

Now, some companies are now talking about operating at densities in the triple-figure kilowatt range. Air-based cooling has its limitations, and these

MHD-Series High Density Server Cabinet

As AI transforms data center architecture, traditional cabinets can no longer support the weight, cooling, and spatial demands of modern GPU-driven systems. The Martin MHD-Series High Density Server

High-Density Data Center Cabinets: Key Design Considerations

Learn the key requirements for high-density cabinets, from airflow management and load capacity to power and cooling integration.
