Sealing off the front counter

Overview

Clean the Countertop: Wipe your countertop clean of any crumbs, spills, or stains. Dry It Out: Make sure it's totally dry before you start sealing. Keeping your kitchen and bathroom countertops looking good and lasting longer is super important, and that's where sealing countertops comes in. It's all about putting a protective coat on them to keep away stains, scratches, and water damage. This guide covers how to seal key areas—and which GE silicone sealants to use—for a cleaner, drier, and more durable kitchen. This process involves applying a specialized chemical barrier that penetrates the material or sits on its surface, preventing spills from seeping into the. Sealing your countertops is essential for maintaining their beauty and prolonging their lifespan.
