Selling Cisco optical modules

Overview

Accelerate Your Business with Cisco OpticsFrom product assistance to module replacements throughout the optics lifecycle, Cisco's global service and fulfil.

Key Takeaways

Yes, Cisco optical modules can be sold, including new, used, refurbished, and compatible third-party modules.

Resale Options

Cisco optical modules, such as SFP, SFP+, QSFP, X2, XFP, CWDM, and DWDM transceivers, are widely resold through specialized IT equipment marketplaces and buyback programs. Companies like NetEquity and Qualified Networks purchase both used and new Cisco modules, offering competitive quotes and logistical support for sellers. These platforms ensure modules are tested for functionality and authenticity, often providing warranties for refurbished products.

Third-

Party Compatible Modules

In addition to original Cisco modules, Cisco-compatible optical transceivers manufactured by third parties are also sold and widely used. These modules function seamlessly with Cisco switches and routers, offering the same performance at a lower cost. High-quality compatible modules are safe, reliable, and recognized by Cisco devices without causing errors, but sourcing from reputable suppliers is critical to avoid low-quality products.

Benefits of Selling Cisco Modules

Cost Recovery: Selling excess inventory or used modules can recoup capital investment. Sustainability: Refurbished modules support circular IT practices and reduce electronic waste. Market Demand: High demand exists for both original and compatible modules in enterprise, data center, and service provider networks.

Considerations

Ensure modules are tested and functional before resale. Verify compatibility with Cisco devices if selling third-party modules. Use reputable resale platforms to guarantee secure transactions and fair pricing.

Some modules may be vendor-locked, so check whether they can be used universally or only with Cisco hardware. In summary, Cisco optical modules can be sold legally and profitably, whether as original, refurbished, or compatible third-party products, provided they are sourced, tested, and sold through trusted channels.

Accelerate Your Business with Cisco Optics

From product assistance to module replacements throughout the optics lifecycle, Cisco''s global service and fulfillment sites provide same-day replacements, and

Buy & Sell Cisco SFP, SFP+ & QSFP Transceivers | Optics

We buy & sell Cisco SFP, SFP+, QSFP transceivers & DAC/AOC cables. Get cash for compatible optics or purchase tested units for Cisco gear.

Cisco Optics | Transform Your Network

Get the highest quality, performance-leading optical transceivers for any network architecture. Find the transceiver model to fit your network.

Sell Used Cisco Optical | Instant Payment & Free Shipping

As an R2-certified partner, we make selling your surplus Cisco optical hardware simple, secure, and profitable. We combine certified data destruction with competitive valuations, ensuring a smooth

Cisco Optics Modules, Cisco GBIC SFP XFP X2 XENPAK Modules

Choose a very right Cisco Transceiver Module or a Optical Transceivers for your Cisco equipment from router-switch , such as Cisco GBIC, SFP GLC module, CFP, XFP, X2 Module and

Used Cisco Equipment

If you have recently upgraded your network with Gigabit or 10 Gigabit Cisco optical transceivers, sell your used or excess optics to NetEquity . Used Cisco Router Interfaces and Modules – we

Cisco Optics Modules Networking Equipment & Hardware up to 80% off

Cisco Optics Modules networking equipment & hardware refurbished or used from Northland Systems. Up to 80% off. Free tech support & money-back guarantee.

Sell Used IT Equipment | We Buy Used Networking Equipment

With TeleTraders, you can enjoy a hassle-free sales without worrying about security, as they provide an easy and straightforward process for selling your networking equipment.

Cisco SFP Transceiver Modules | Refurbished Used | NetworkTigers

Shop Cisco SFP transceiver modules at NetworkTigers. 1 GbE copper, multimode, and single-mode optics. Refurbished and used with a 365-day warranty.

Genuine Transceiver Modules

GenuineModules is a reliable supplier of optical interconnect products for use in fiber optic networking, including optical transceiver modules, direct attach cables,

Cisco 10GBASE SFP+ Modules Data Sheet

The Cisco® 10GBASE SFP+ modules (Figure 1) give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise

Cisco 400G Digital Coherent Optics QSFP-DD Optical Modules

Cisco offers a comprehensive range of pluggable optical modules in the Cisco® pluggables portfolio. The wide variety of modules gives you flexible and cost-effective options for all types of interfaces.

Cisco 400G QSFP-DD Ultra Long Haul Coherent Optics Module Data

The Cisco 400G QSFP-DD Ultra Long-Haul Coherent Optics Module enables 400G traffic anywhere over dense wavelength division multiplexing amplified networks, and is available in both C

One New Cisco SFP-10/25G-CSR-S 10 Gigabit Multimode Dual Rate Optical ...

Find many great new & used options and get the best deals for One New Cisco SFP-10/25G-CSR-S 10 Gigabit Multimode Dual Rate Optical Module at the best online prices at eBay! Free shipping for

Cisco 400G QSFP-DD High-Power (Bright) Optical Module Data Sheet

© 2026 KENHARDT OPTICAL NETWORKS - All rights reserved

Learn how Cisco 400G QSFP-DD High-Power (Bright) Optical module''s small size and low power make it an optimal choice for a wide range of DCI/Cloud, metro access/aggregation,

10Gtek 1.25G SFP 1000Base-LX Transceiver, 1310nm SMF Fiber Optic Module ...

10Gtek is a manufacturer of transceiver, customized service is available. Manufacturer: 10Gtek. 1000BASE-LX/LH SFP to LC Optical Gigabit Ethernet Fiber transceiver module, 1.25G

Advanced Optical Modules Market Growth to Accelerate by 2035

World Advanced Optical Modules market forecast 2026-2035: CAGR of 8.2%, market index 2035 at 220. Driven by AI clusters, 800G migration, silicon photonics.

Buy low power consumption sfp modules, Good quality low power ...

H3C Gigabit Optical Modules Product Overview Adopting advanced technologies, H3C Gigabit Optical Modules feature low power consumption, hot-swap capability and wide compatibility.
