Industrial Communication Ethernet Switches

Overview

Managed, unmanaged and Power-over-Ethernet (PoE) IP20- and IP67-rated Industrial Ethernet Switches are robust and versatile, helping enable industrial automation and monitoring in challenging conditions subject to extreme temperatures, dust and moisture. This gives you the flexibility to build powerful and secure networks, even in harsh environments: copper and FO ports, as well as redundancy. SCALANCE offers a comprehensive portfolio of integrated industrial communication solutions. Find the perfect connection for every industrial application – from the automotive and chemical industries to the manufacturing and process industries. They are robust, impact-resistant and temperature-resistant. All products fulfil the highest requirements for reliable and flexible industrial Ethernet communication.
