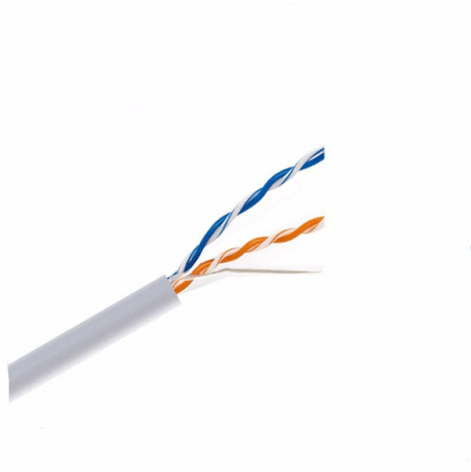
The router has no fiber optic cable input



Overview

Q: Can I plug a fiber optic cable directly into a router?

A: Only if your router has an SFP port designed for fiber. Q: Do I need a special router for fiber optic internet?

A: While not all routers support fiber, many modern models. To connect your fiber optic cable to a router, ensure you have the following: Fiber optic modem (ONT): Most fiber connections require an Optical Network Terminal (ONT), provided by your ISP. The fiber line terminates at the Optical Network Terminal (ONT), which is typically supplied and installed by the internet service provider. Before. This morning my ISP upgraded my Internet connection from a standard coaxial cable and Cisco modem to a fiber optic cable and Hitron modem Model Name NOVA-2004. Despite multiple attempts, the Archer AX6000 v1.
