In outdoor or industrial environments, everyone knows that weatherproof outdoor socket box is the "armor" protecting the internal circuitry. However, many may not realize that whether this armor can truly block heavy rain or water vapor depends entirely on that seemingly insignificant sealing. The selection of O-ring materials is of great significance to its sealing performance and service life. In addition to the general requirements of the sealing ring material, the O-ring should also pay attention to the. (1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65–IP68 sealing against dust, rain, and UV. The junction box can be used to make the cables safer and extend the life of the cables.
