Waterproof iron electrical distribution box

Overview

Waterproof Iron Electrical Equipment Distribution BoxWe want to be your best choice for distribution box and cabinet. Our products are sold widely to more.

Key Takeaways

Waterproof iron electrical distribution boxes provide durable, corrosion-resistant protection for electrical circuits in outdoor and industrial environments, typically rated IP65–IP66.

Key Features

Material and Construction: These boxes are usually made from mild sheet steel or iron with powder-coated or spray-painted finishes to resist corrosion and environmental damage. Some models include automatic welding, laser cutting, and phosphating for enhanced durability and precision. Waterproofing and Protection: Iron distribution boxes are designed to meet IP65 or IP66 standards, ensuring protection against dust, rain, and water jets.

This makes them suitable for outdoor installations and harsh industrial environments. Many boxes also feature impact protection (IK09) to prevent damage from external forces. Design and Customization: These boxes often come with knockout holes for flexible wiring, transparent or solid doors, and options for DIN rail mounting.

Manufacturers provide custom sizing, circuit configurations, and surface finishes to meet specific project requirements. Electrical Specifications: Typical iron distribution boxes support rated voltages up to 400V, insulation voltage up to 690V, and terminal currents around 75A. They can accommodate 4 to 36 circuit channels, each protected by individual circuit breakers.

Certifications and Safety: Many iron distribution boxes are CE and RoHS certified, ensuring compliance with safety and environmental standards. They are designed to be halogen-free, silicon-free, and temperature-resistant for reliable long-term use.

Applications

Outdoor electrical installations such as lighting, pumps, and solar systemsIndustrial control panels and machinery protectionCommercial buildings requiring robust, waterproof electrical enclosuresAdvantages of Iron BoxesHigh mechanical strength compared to plastic enclosuresLong-term durability in outdoor and industrial conditionsCustomizable layouts for complex wiring and circuit management For purchasing or custom solutions, manufacturers like Wenzhou Xujie Electric Co., Ltd and ZCEBOX offer a range of iron distribution boxes with IP65–IP66 ratings, CE/RoHS certifications, and tailored configurations to suit specific electrical projects.
