Low loss MTP adapter module

Overview

Pre-terminated 12/24-fiber MPO/MTP to LC cassette with LGX design supports 40G/100G network upgrades, ensuring low loss and easy plug-and-play deployment. All modules are manufactured using enhanced optical fiber and low loss connectors. Each unit is factory tested through the finished module for guaranteed low loss performance in ny network. DMSI standard. EDGE8® modules provide an interface between 8-fibre MTP®/MPO connectors and LC duplex connectors. Ultra-low-loss connectivity enables design flexibility to permit multiple potential connections within the system (e. This MTP cassette allows for rapid deployment of fiber optic. Swivel MPO/MTP adapter ensures easy cable routing and optimal bend radius. Seamlessly supports 40GbE and 100GbE migrations.
