Painting Metal Distribution Boxes

Overview

Protect around the base of the box with plastic or paper to avoid drips. If your city has a program, you'll be able to find the application online. NOTE: if repainting a. Keeping with the look and feel of this Co-Op building in Manhattan, we deep cleaned and sprayed the lobby's metal mailboxes with Brilliant Palegold before applying a clear lacquer finish to protect the surface. With this protective layer, a container is less likely to accumulate rust when exposed to rain, snow, and sea spray during. Safety Warning:High-voltage distribution boxes can be painted in eye-catching colors such as bright yellow or orange to alert non-professionals to be cautious of safety. Regional management:Different functional areas are marked with different colors (such as red for fire power supply, blue for weak.
