Pre-connected drop fiber optic cable

Overview

Pre-connected drop cable also called fiber optic cable with connectors, was designed to applied in indoor or outdoor, on last mile installation routes to connect final users to FTTH or GPON line. Designed to deliver high-speed data, voice, and video services directly to subscribers, drop cables ensure reliable, high-performance connectivity in fiber-to-the-home. All ZION FTTH drop cables are available with G. B3 bend-insensitive fibers to keep losses low in real installation environments. ZION COMMUNICATION offers a complete range of FTTH drop cables for: Typical ZION FTTH drop cable families include: Indoor drop cables are designed for. Featuring reduced-diameter flat drop cables, these assemblies are available with dielectric and toneable options and an innovative design which allows quick and easy access to the fiber to reduce prep and installation time.
