What does TL stand for in a distribution box

Overview

A Tab Locking (TL) box, or mailing box, is designed with tabs that lock into place, creating a secure and visually appealing packaging solution. LTL stands for “less than truckload” and refers to the shipping of a relatively small freight. The body of the boxes shall have sufficient re- enforcement with suitable size of channels keeping a provision for fixin andle conforming to general. TL stands for “Truckload,” while “LTL” stands for “Less Than Truckload. ” But what does LTL vs TL shipping actually mean?

Both are valid shipping methods to get your items from point A to point B. But the right one for your business will depend on a number of different factors. TL shipping offers dedicated transport, ensuring goods move directly from origin to destination. A Lean Six Sigma term used to describe a goal of achieving ten times the improvement in a process or product.
